Shiva Consultancy Group - Your  
partner in growth, innovation,  
and sustainability

# Elevate Your Business with the Pradhan Mantri Kisan SAMPADA Yojana

- Shiva Consultancy Group (SCSG) is thrilled to present an unparalleled opportunity for businesses to leverage the Pradhan Mantri Kisan SAMPADA Yojana, particularly the 'Scheme for Integrated Cold Chain & Value Addition Infrastructure.'
- This initiative by the Government of India aims to revolutionize the food processing industry by providing comprehensive support for setting up food irradiation units and cold chain solutions.

# Why This Scheme Matters

- The Pradhan Mantri Kisan SAMPADA Yojana is designed to enhance the efficiency, hygiene, and shelf life of perishable agricultural produce through state-of-the-art irradiation treatment and robust cold chain infrastructure.
- This scheme addresses the critical need for modern technology in the food processing sector, ensuring better value addition and preservation of agricultural commodities.

# Key Benefits and Components of the Scheme

1. Financial Assistance:
  - Grants covering 35% of the project cost for general areas and 50% for difficult areas, SC/ST, FPOs, and SHGs, up to a maximum of ₹10 crore per project.
  - Comprehensive coverage for standalone food irradiation units or integrated units with cold chain and value-addition infrastructure.
2. Eligible Facilities:
  - Food irradiation units
  - Mechanized sorting and grading lines
  - Pre-cooling units and mobile pre-coolers
  - Cold storage, controlled atmosphere storage, and frozen storage units
  - Packaging lines for temperature-controlled products
  - Refrigerated transport and containers
  - Renewable energy technologies (solar, biomass, wind) for project implementation
3. Priority for MSMEs:
  - The scheme gives priority to entities from the MSME sector, recognizing their pivotal role in the food processing industry.
4. Modern Technology Adoption:
  - Encouragement for the use of advanced technologies in temperature-controlled storage, processing, and value addition.

# Basic Eligibility Criteria

1. Land Requirements:
  - Minimum land area of 1.5 acres for a standalone irradiation unit.
  - Minimum land area of 3.5 acres for an integrated irradiation unit.
  - Land should be in possession of the applicant and converted for industrial use.
2. Capital Requirements:
  - Infusion of equity of at least 20% of the total project cost for proposals from general areas.
  - 10% of the total project cost for proposals from difficult areas or SC/ST or Farmer Producer Organizations or Self-Help Groups.
3. Net-Worth Requirements:
  - The combined net worth of the applicant should be at least equal to the grant-in-aid sought from the Ministry.
4. Loan Sanction:
  - In-principle or final term loan sanction letter from a scheduled commercial bank or recognized financial institution.
  - Term loan amount not less than 20% of the total project cost for general areas and 10% for difficult areas, SC/ST, FPOs, or SHGs.
5. Detailed Project Report (DPR):
  - A comprehensive DPR indicating the financial and technical profile of the entity, raw material availability, procurement arrangements, marketing strategy, process flow diagram, financial estimates, profit and loss statement, estimated employment generation, and the number of farmers estimated to benefit.

# Project Cost and Subsidy Details

## 1. Project Cost:

- Minimum project cost is defined by the required components and infrastructure needs of the project, typically starting around ₹1 crore.
- Maximum project cost eligible for consideration under the scheme is determined by the scope and scale of the project, with significant projects potentially reaching up to ₹30 crore or more, depending on the specific components and infrastructure included.

## 2. Subsidy Amount:

- Maximum subsidy provided under the scheme is ₹10 crore per project, covering eligible costs related to plant & machinery, and technical civil works.

# How Shiva Consultancy Group Can Help

- Expert Guidance:
  - SCSG offers unparalleled expertise in navigating the complex application process. We ensure that your project proposal meets all the criteria for successful grant approval.
- Customized Solutions:
  - Our team develops tailored project plans that align with your business objectives and the scheme's requirements.
- Maximized Financial Support:
  - We help you optimize the financial assistance available under the scheme, enhancing the feasibility and profitability of your project.
- Sustainability Focus:
  - We prioritize the incorporation of renewable and energy-efficient technologies, promoting long-term sustainability and cost efficiency.

# Your Path to Success

- Partnering with Shiva Consultancy Group means more than just accessing consultancy services. It means aligning with a team dedicated to your business's growth and sustainability. By leveraging the opportunities presented by the Pradhan Mantri Kisan SAMPADA Yojana, we enable you to enhance your operations, extend product shelf life, and reduce wastage, ultimately driving profitability and growth.
- Seize this golden opportunity with SCSG Services and embark on a transformative journey for your business. For more information, visit our website [Shiva Consultancy Group](<http://www.shivagroup.org.in>) or contact us at:
